

Managing Policy and Group Assignments

From the **Manage > Policies** or **Manage > Groups** page, you can manage how policies and groups are assigned to each other.

Associating Groups with a Policy

You can associate a group or multiple groups with a policy from the Policies page or from the Edit Policy page.

To associate a group from the Policies page, follow these steps:

1. From **Manage > Policies**, find the name of the policy that you want to associate a group(s) with.
2. On the right, click **Actions (...)** > **Associate Groups** for that policy.
3. In the **Associate Groups** dialog window, select the group or groups that you want to associate with the policy and click **Associate**.

To associate a group from the **Edit Policy** page, follow these steps:

1. From **Manage > Policies**, find the name of the policy that you want to associate a group with.
2. Click the name of the policy to open the **Edit Policy** page.
3. On the right side of the Edit Policy page, click **Associate Groups**.
4. In the **Associate Groups** dialog window, select the group or groups that you want to associate with the policy and click **Associate**.
5. Click **Save Policy**.

Associating Policies with a Group

You can associate a policy or multiple policies with a group from the Manage > Groups page or from the Edit Group page.

To associate a policy from the Groups page, follow these steps:

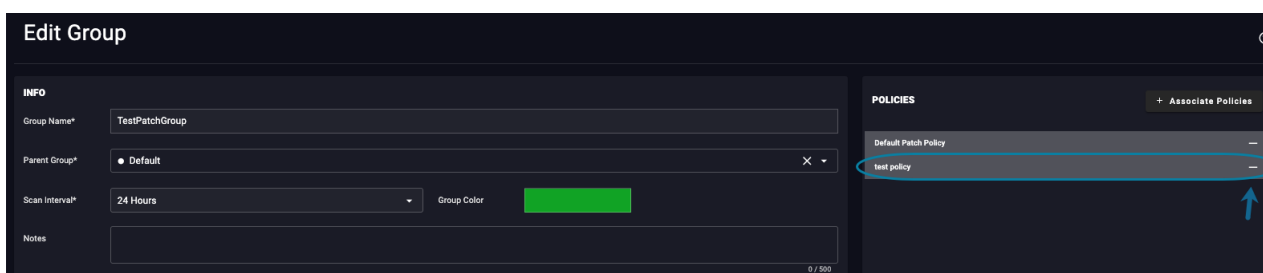

1. From the **Manage > Groups** page, find the name of the group that you want to associate a policy with.
2. On the right, click **Actions > Associate Policies**.
3. In the Associate Policies dialog window, select the policy or policies that you want to associate with the group and click **OK**.

To associate policies from the Group editor, follow these steps:

1. From the **Manage > Groups** page, click the name of the group to open the **Edit Group** page.
2. On the right side of the group editor page, click **Associate Policies**.
3. In the Associate Policies dialog window, select the policy or policies that you want to associate with the group and click **OK**.
4. Click **Update Group**.

Removing an Associated Policy from a Group

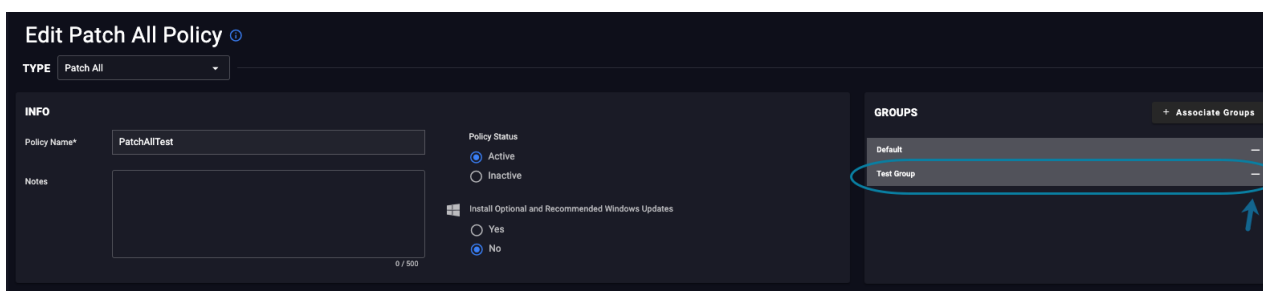

You can remove a policy from a group from the **Edit Group** page.

1. From the **Manage > Groups** page, click the name of the group to open the **Edit Group** page.
2. Remove an associated policy by clicking on the minus sign (-) next to the policy name on the right.
3. Click **Update Group** to confirm.

Removing an Associated Group from a Policy

You can remove a group from a policy from the **Edit Policy** page.

1. From the **Manage > Policies** page, click the name of the policy to open the **Edit Policy** page.

2. Remove an associated group by clicking on the minus sign (-) next to the group name on the right.
3. Click **Save Policy** to confirm.

Scheduling a Policy for Immediate Remediation

1. From **Manage > Policies**, find the name of the policy.
2. On the right, click **Actions > Run Policy**. A dialog box warning appears.
3. Click **Run Policy** or **Cancel**.

Note: Manually executing a worklet triggers the remediation script regardless of the compliance status of the device. *Use this with caution.*
