

How Do I Set Up Automox?

Last Modified on 12/09/2020 1:09 am EST

High Level Setup Instructions for Automox

Setting up Automox within your organization is simple. Once you have created your account, simply log in to the platform and follow the Onboarding Wizard to download the OS specific agent and install it on the device. Once the agent is installed you will quickly see the device in your dashboard with all of its attributes and software.
